November 10, 2007

Dear friends of One House At A Time,

Another year is almost past, and I'm excited about everything One House At A Time has been able to do in 2007! So far this year, we've helped more than 140 families and delivered close to 300 new beds! We translate that into dozens of families having a second chance as they start a new life, an opportunity to have the basic necessities that they were somehow managing without, and the satisfaction of knowing that the children are getting a better night's sleep which in turn allows them to learn and grow. It's your support and dedication that enables us to make this happen!

We love to share our stories about the families we meet when we deliver furniture, beds and household items to their homes. And one in particular that you might recall hearing about, Levette Humphrey, has truly come into her own and is now making a difference for others in need! If you can take just a few minutes, I'm sure you'll be touched by the attached Ambler Gazette article about our amazing long time friend. It's wonderful to know that together we're making a difference.... one family at a time!

One House At A Time does have so much to be thankful for, but we need to ask for your support once again. As we enter into this holiday season, please consider One House At A Time. The attached flyer provides a wonderful alternative to searching for and giving yet another gift to that special person who already has so much.

God bless and have a wonderful holiday season!

Ken Barber
Chairman of the Board
One House At A Time

PS – On behalf of everyone at One House At A Time, I'd like to thank Jim Tilney for the leadership he provided to us as Chairman since 2005. I look forward to our future as I now step up to the plate as Chairman of One House At A Time. Thanks again to Jim, and we appreciate his continuing to support us as a member of our Board in the future!
